

What's Your Type?

Supercharge your tone with two killer new speakers from Celestion

"Really influenced by American tones yet retains the signature Celestion character: it sounds just wonderful"

- Pete Thorn
(Melissa Etheridge, Don Henley)

"The A-Type delivers bigger, fuller bass and more sparkling, complex treble."

- Chris Gill, Guitar World

A-Type

50-watt, 12" ceramic magnet guitar speaker.

Big, blooming low-end and smooth, silky highs meet relaxed mids with surprising results in the A-Type, letting you unleash bold new tones from your existing amplifier.

"My weapon of choice!"

- Richard Fortus (*Guns'n'Roses*)

"We have never heard a speaker with quite the same tactile 'feel' and response as the V-Type."

- The ToneQuest Report

V-Type

70-watt, 12" ceramic magnet guitar speaker.

Whatever your style, the V-Type produces an inspiring, exciting blend of modern feel with classic vintage Celestion sound that just makes you want to keep on playing.
